3. Product Description

Elevation® Combo Corner is a one-piece galvanized metal component designed to reinforce outside corners and door thresholds to provide a strong, stable substrate for the application of Elevation S60 Waterproofing Membrane over otherwise irregular surfaces.

Where to use

- Door thresholds
- Outside Corners
- See Elevation® waterproofing manual for more details.

Suitable Substrates

- Intended for use directly over the properly installed S60 waterproofing membrane.

Product Composition

- Pre-fabricated galvanized metal.

Product Limitations

- Do not apply over wet or contaminated surfaces.

Packaging

- 100 per box – packs of 25

4. Technical Data

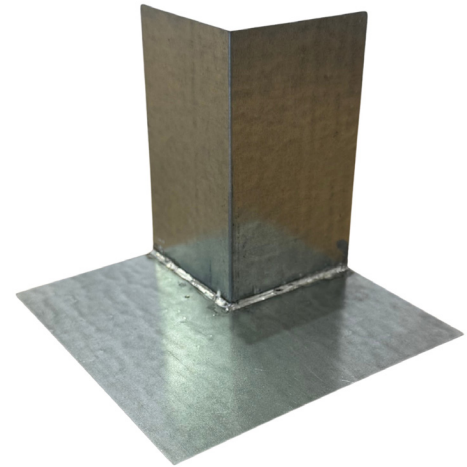

Applicable Standards

Property	Results
Coating	Galvanized
Thickness	26 Gauge

5. Instructions

General Surface Prep

Ensure the surface is clean and dry. Remove dirt, debris, oil, grease, and contaminants. Address excessive moisture if necessary. Avoid extreme

conditions. Perform a final check to clear debris and confirm the surface meets all preparation guidelines before installation.

Application

Outside corners: place one combo corner on each outside corner to receive waterproofing membrane. Fasten in place with a nail on each corner of the horizontal and vertical flanges for a total of 5 nails per combo corner.

Door thresholds: place one combo corner in each corner of every door threshold. Fasten in place with a nail on each corner of the horizontal and vertical flanges for a total of 5 nails per combo corner.

- Storage and protection.
Protect from weather, extreme temperatures, and moisture.
- Health Precautions.
Follow all local safety regulations, Including OSHA Section V: Chapter 4 for Fall Protection in Construction.
- Conformance to building codes.
Installation must comply with all applicable local, state, and federal codes, regulations, and industry standards.

6. Product Warranty
